

TRATO SE 5080 LED

Architectural line

TRATO SE 5080 LED

Lighting system for linear LED Module, maximum 13 432 lumens / meters

- Installation: suspended, LO or LI recessed, ceiling mounted
- Independant elements or elements for beginning, intermediare or end for continuous lighting up to 40 meters
- CRI of 80
- MacAdam ellipse : 3 SDCM
- Available in 3 000 K and 4 000 K
- 50 000 hours lamp life (L80B20)
- Luminous efficiency of system up to 162,8 lm/W
- Optics available in rolls up to 50 meters (10, 20, 30, 40 or 50 meters) in predefined length (1 120 mm, 1 680 mm, 2 240 mm and 3 360 mm)
- Opal diffuser made of polycarbonate (DO) or microprism diffuser (MIC)
- Housing made of painted extruded aluminium profil
- Painted steel endcaps
- Static heat sink
- **Weight:** approx. 5 kg / m
- **Number of module(s):** Depend on the length of the luminaire
- **Driver(s):** Fixed, Dimmable driver DALI (CDIMMDALI)
- **Accessories:** Suspension kit
- **Option(s):** Suspended luminaire with indirect lighting, 90° angle, lighting sensor and-or movement detection

Driver(s)

Standards

Class I | IK07 | 650°

Beam(s)

LED configuration recommended for **commercial use**

| ITEM | LENGTH (MM) | POWER | CONSUMPTION | LUMINOUS FLUX | SYSTEM EFFICIENCY | COLOUR TEMPERATURE | CRI | EFFICIENCY ENERGY CLASS |
|-----------------------|-------------|-------|-------------|---------------|-------------------|--------------------|-----|-------------------------|
| SE 5080 LED 4400-830 | 1120 | 25W | 29W | 4345 lumens | 149,5 lm/W | 3000 | 80 | C |
| SE 5080 LED 4400-840 | 1120 | 25W | 29W | 4574 lumens | 157,3 lm/W | 4000 | 80 | C |
| SE 5080 LED 6600-830 | 1680 | 36,6W | 42W | 6380 lumens | 151,6 lm/W | 3000 | 80 | C |
| SE 5080 LED 6600-840 | 1680 | 36,6W | 42W | 6716 lumens | 159,6 lm/W | 4000 | 80 | C |
| SE 5080 LED 8800-830 | 2240 | 50W | 58W | 8690 lumens | 149,5 lm/W | 3000 | 80 | C |
| SE 5080 LED 8800-840 | 2240 | 50W | 58W | 9148 lumens | 157,3 lm/W | 4000 | 80 | C |
| SE 5080 LED 13000-830 | 3360 | 73,2W | 84W | 12760 lumens | 151,6lm/W | 3000 | 80 | C |
| SE 5080 LED 13000-840 | 3360 | 73,2W | 84W | 13432 lumens | 159,6 lm/W | 4000 | 80 | C |

LED configuration recommended for **office use** (UGR<19 with microprismatic optics)

TRATO SE 5080 LED

The rolls are available in lengths of 10, 20, 30, 40 or 50 meters, which enables to install the diffuser on the whole length, without interruption.

1- Trimless recessed

2- Ceiling mounted

3- Recessed Lay-in

4- Recessed Lay-out

5- Suspended

Option(s) for suspended version

45° angle

60° angle

TRATO SE 5080 LED

TRATO SE 5080 LED

The technological innovation for buildings and users

The SE 5080 LED lighting system is equipped with the last technological innovations regarding the control in order to optimize energy savings and to reduce maintenance costs.

Whether for new building or renovation, the SE 5080 LED meets the latest standards in terms of energy consumption without compromising user comfort, and offers maximum flexibility of use.

The SE 5080 LED can be equipped with a wireless or wired control solution and be operated as a stand-alone unit.

It can also be equipped with a certified DALI-2 captor (<https://www.dali-alliance.org/dali2/>) and becoming the ideal lighting system for a control from the building management system (BMS).

The use of certified DALI drivers by 251, 252, and 253 (<https://www.dali-alliance.org/dali/data.html>) enables the SE 5080 LED to return as much information as possible, truly useful to the management and the maintenance of the system.

To go further you can also equip the SE 5080 LED with sensors for temperature, humidity or air quality.

More than a lighting device, the SE 5080 LED becomes the key element for building management.

Thanks to these features, the SE 5080 LED adapts itself to all the configurations of a tertiary environment.

- Presence detector (PIR)
- Daylight control
- Temperature
- Humidity
- Air pressure and quality

- Individual office
- Open space
- Meeting room
- Corridor
- Refectory

TRATO SE 5080 LED

The technological innovation for buildings and users

Because our needs in lighting change according to age, time of day and tasks to accomplish, being able to adjust the intensity and the colour temperature can greatly improve user comfort.

The integration of *Tunable white* Led sources into the SE 5080 combined to a manual controlling system, allows users to change both the light intensity and the colour temperature at will.

You can also combine the SE 5080 LED *Tunable white* to an HCL autopilot system. So that it can reproduce the natural variation of colour temperature throughout the day, and thus try to reproduce the visual and non-visual light effect as well as possible.

See better

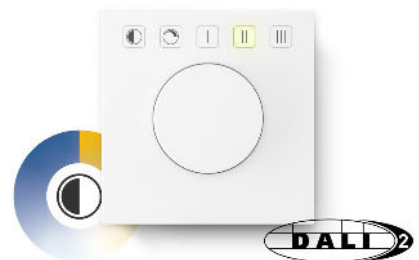

Live better

Feeling better

Rotary button, touch screen, iOS or Android App, there are a multiple of control solution compatible with the SE 5080 LED.
