THE GROUP

The three entities **TRATO, TLV and BIOLUME RESINOR** offer a wide range of lighting devices, hospital equipment, furnishings for early childhood settings, as well as lighting control systems and related services.

With **240 employees** and modern production facilities, the Group has become a key European market player in its sector. It offers customised solutions and focuses the development of its new products on performance, low consumption and energy savings.

The Group is firmly committed to an environmental approach.

TRATO

Lighting

TRATO has been designing and manufacturing custom lighting devices for over 70 years. This family-run business specialises in designing lighting devices for retail chains in France and internationally. A leading player in the lighting device manufacturing market and boasting a state-of-the-art factory, TRATO is trusted by numerous world-renowned brands for their lighting projects, particularly in the retail sector.

OUR VALUES

To develop innovative and high-performance lighting devices by regularly investing in our production facilities and allocating 4% of our annual turnover to R&D

We are constantly attentive to the needs and suggestions of our customers and internal and external suppliers in order to develop productive and harmonious working relationships

Commitment, integrity and honouring our commitments to build a climate of trust with our partners so that we can achieve our shared objectives together

Innovation

Performance

Performance measurement, training and continuous improvement to ensure our customers benefit from our innovation policy

Customer focus

Ethics

Ethics, compliance with laws, regulations and standards, in order to provide our internal and external partners with a calm and secure environment

Involvement

Environmental approach

The Group adheres to a policy of social and environmental responsibility and sets itself annual targets for environmental improvement. TRATO and TLV are also assessed by the rating agency Ecovadis

OUR ECONOMIC COMMITMENTS

ecosystem
recycler c'est protéger

Adherent and founder of **Ecosystem**, a non-profit eco-organisation responsible for the collection and recycling of used lamps. It has also been accredited since 15 August 2012 for professional electrical and electronic equipment (WEEE Pro) used in the construction, industrial and medical sectors : lighting, regulation and control equipment, measuring instruments, medical equipment, etc.

afnor
GROUPE

Adherent of **AFNOR** and member of the S92D Standardisation Committee on 'Medical Gas Pipeline Systems'. AFNOR and its subsidiaries form an international group dedicated to serving the public interest and promoting economic development.

Perifem

Adherent of **Perifem**, this federation brings together stakeholders from the retail and distribution sectors to address technical, energy and environmental issues relating to sites and infrastructure.

La FRENCH FAB

Adherent of **La French Fab** since 2022. An organisation that brings together companies, economic stakeholders, institutions and industrial sites based in France, all of whom share a commitment to developing French industry.

Club enseigne & innovation

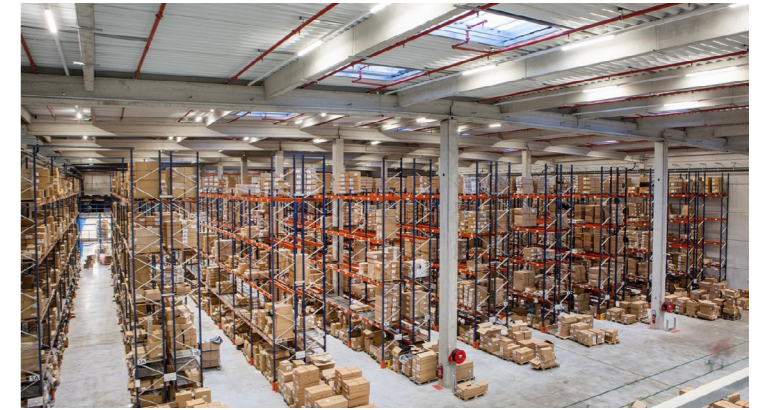

Adherent of the **Club Enseigne & Innovation**. A network that brings together key players in the retail and innovation sectors to encourage the sharing of expertise and anticipate developments in the retail industry.

Roubaix
La Piscine
MUSEE D'ART ET D'INDUSTRIE
ANDRÉ DILIGENT

Patron of the **Musée de La Piscine in Roubaix**, supporting and contributing to the museum's projects, as well as to the expansion and restoration of its collections.

Colisée
Un soir ensemble
